Transitions takes away the stress of moving, providing personal, caring service for every part of the move. We provide you with peace of mind, knowing that every aspect of the move is coordinated and supervised. In addition to standard services such as packing and moving, Transitions coordinates with Lawyers, Real Estate Agents and Auctioneers.

We can develop a floor plan for your new residence, hang pictures, unpack, and even set up clocks, T.V.s and computers.

That's what sets us apart from traditional movers. We manage the entire transition down to the finest detail, all with the caring concern you would show your loved one yourself.

## Testimonials

*“Thank you to you and your team for allowing us to handle this transition of (our father) during this very stressful time in our lives. You and your team have done everything that you promised to do and we find you to be highly professional. We would not hesitate to recommend your services to others in the same position that we found ourselves.”*

*“When I was moving out of my house I called Transitions to help me as it was all too overwhelming for me to do on my own. I was delighted with the services provided by Transitions. They did what they said they would do, and more. The results were absolutely incredible. I didn't worry about a single detail because they were all looked after for me. I have to say that I was 100% satisfied with their services and I have been recommending them to my friends. I don't know how I would have done it without them.”*

## Estate Distribution

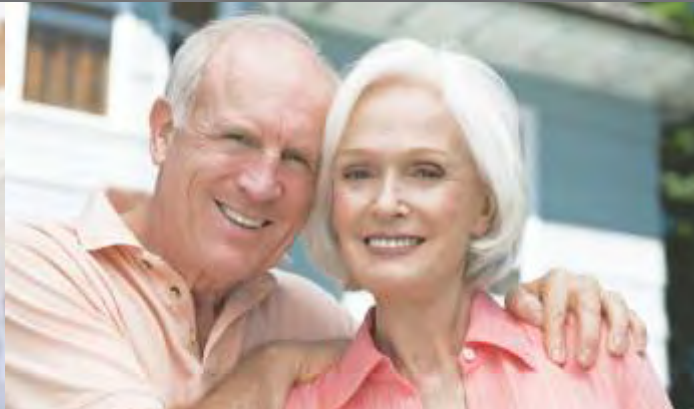

With the loss of a loved one and all the emotions involved, we understand that the task of clearing up an estate is overwhelming at a time when one needs to grieve. With families often demographically located across the country, or busy with careers that do not allow them extra time to deal with the items left behind, Transitions is able to help.

We thoroughly go through every item – making sure each recipient of gifts from the estate receives them. Papers are gathered for taxes and no stone is left unturned. We treat you as we would want to be treated, guiding you and your family through each step during this difficult time.

**Transitions** works with empathy and compassion. We specialize in handling unique circumstances. Call us today to talk about your personal needs.
